ALLOCATED RACING NUMBERS

We have operated a system for several seasons whereby riders can save time and money by selecting a race numbers when they join the Club at the start of the season. This works perfectly, as long as entries are submitted prior to the closing date for each meeting. Late entries, however, can cause us major problems. Programmes, signing-on forms, transponder sheets and numerous other sets of paperwork have to be constantly up-dated to squeeze in entries received after the closing date. This can easily lead to riders being omitted from either races or result sheets. This season, please be aware, that any entries received after the official closing date may have to be allocated higher numbers which follow on from the latest entries received. **The solution is simple – enter on time and keep your preferred number.**

TRANSPONDERS

Please note, under NO circumstances may a transponder be used by more than one competitor.
Strictly **one** rider – **one** transponder at all meetings.
